Part Time: Certificate III component – 2 * 18 week blocks

Please note: As a part time student you will be working on networking units in the first block and online units in the second block. This equates to between 12-15 hours of study per week.

Block 1: February 2010 Start

Weeks 1 – 18 – face to face classes 2 nights per week

Weeks 1 – 9: Networking one night and A+ other night

Weeks 10 – 18: Networking both nights

Block 2: July 2010 Start

Weeks 1 – 18: Online units (access via Blackboard 24 hours a day)

Pre-requisite units

If you do not have the 9 pre-requisite units listed on the course brochure you will have to enrol in these nine units so that you can be tested out of these units. The tests are conducted online during the first 2 weeks of your course. If you cannot pass these tests you cannot continue on in the certificate III and will either have to withdraw or swap your enrolment to the certificate II in IT. Please note that the testing process is a series of tests. You should already have the content knowledge to pass these tests before enrolling as teaching of the content is not provided. If you do not have the content knowledge you will have to enrol in the certificate II.

If you already have these 9 units from another place of study you will have to contact the course coordinator (theresa.weber@southbank.edu.au) so a transfer of credit will be organised. There is no cost for this process.

If you have any questions about this process please contact Theresa Weber **before** enrolling.

Multiple start dates

This course has 3 intakes per year. You will be required to be enrolled in the group before the dual mode class start date. Eg If you wish to study in February group you will have to be enrolled prior to 2nd February 2010. Consideration will be given to late enrolments by phoning Theresa Weber 3244 5151.

Issues may arise beyond the institute's control which affect its ability to deliver programs. Whilst every effort will be made to conduct all programs as advertised, the Institute reserves the right to change or otherwise revise any program related issues including programs offered, class timetables, class locations and teacher allocations. The institute will make every reasonable attempt to advise students of any changes made to their selected program. The details in this document are correct at the time of printing.

Disability Type Definitions

These definitions may be useful for you to complete the disabilities section (11) on this form.

Hearing/Deaf

Hearing impairment is used to refer to a person who has an acquired mild, moderate or even severe or profound hearing loss. A person who is deaf has a severe or profound hearing loss and mainly relies upon vision to communicate.

Physical

A physical disability affects the mobility or dexterity of a person and may include a total or partial loss of a part of the body. For example amputation, arthritis, cerebral palsy, multiple sclerosis, muscular dystrophy, paraplegia, quadriplegia, or post-polio syndrome.

Intellectual

Low general intellectual functioning and difficulties in adaptive behaviour.

Learning

Significant difficulties in the acquisition and use of listening, speaking, reading, writing, reasoning, or mathematical abilities.

Mental Illness

Psychological and physiological symptoms that cause a person suffering or distress and which represent a departure from a person's usual pattern and level of functioning.

Acquired Brain Impairment

Acquired Brain Impairment is injury to the brain that results in deterioration in cognitive, physical, emotional or independent functioning. Acquired Brain Impairment can occur as a result of trauma, hypoxia, infection, tumour, accidents, violence, substance abuse, degenerative neurological diseases or stroke. These impairments may be either temporary or permanent and cause partial or total disability or psychosocial maladjustment.

Vision

A partial loss of sight causing difficulties in seeing up to and including blindness.

Medical Condition

Medical condition is a temporary or permanent condition that may be hereditary, genetically acquired or of unknown origin. For example AIDS, cancer, chronic fatigue syndrome, Crohn's disease, cystic fibrosis, asthma and diabetes.
